

Asset Management

Partnerships for Renewables (PFR), is an asset management service provider with over 11 years' experience developing, building, and operating large scale renewable energy projects. Having sold its c.600 MW development portfolio in 2017 and now focussing entirely on technical and operational asset management services, PFR has a wealth of experience to call upon.

Pario Renewables (PRL), part of the Pario group of companies and established in 2009, is an independent SPV management company offering tailored management services solutions to projects within the renewable energy sector. Pario's approach is simple; to deliver intelligent, innovative solutions that embrace collaboration.

Our Experience

PFR and PRL currently manage a diverse portfolio for a number of clients, with a combined capacity of over 373 MW. This portfolio currently includes:

- 21 projects
- 146 wind turbines (340 MW)
- 7 solar farms (33 MW)

Seamless Joint Services

Partnerships for Renewables and Pario Renewables have combined forces to provide clients with a joint service, managing a wide range of asset and technology types.

Senior Management

Simon Vince, CEO of PFR, has over 19 years' experience working in every aspect of renewable energy development, construction, and operational management. Successfully delivering a portfolio of wind farms with most major turbine manufacturers totalling 70 turbines and over 110MW of installed capacity, Simon has also acted as Technical Advisor on acquisitions, leading the successful due diligence process on both operating assets and pre-construction opportunities.

Prior to this, Simon worked for Ecotricity as Head of Projects and Operations and was a member of the Renewables UK Wind Turbine Safety Rules Steering Group. Before his switch to wind energy, Simon spent 15 years in a number of roles in the service sector of the oil and gas industry, working for BP, Shell and Amoco in well services and completion engineering and design.

Darren Barclay, Finance Director at Pario, has been working in financial and management accounting for over 21 years; including a position as Group Financial Controller for a major construction PLC. Darren heads up the PRL business, providing financial and company secretarial management and consultancy services to the PFI/PPP and renewable energy industries, including a number of wind and solar energy projects.

An Associate of Chartered Institute of Management Accountants, Darren's areas of expertise are technical accounting, financial reporting and business planning. Prior to joining Pario in 2006, Darren worked for a number of high profile companies including Jarvis PLC, SDRC UK Limited, Rank Xerox and British Rail.

Adam Rickard, a Director at PRL, has worked in a range of industries and for the last 13 years has focussed on Energy and Project Finance, including financial management, acquisitions and disposals, financing and refinancing, and termination & renegotiation of long term Energy Supply Contracts.

Adam oversees the PRL Finance Team and provides financial management and consultancy to Project Finance consortia. Also a Fellow of the Association of Chartered Certified Accountants, Adam has worked on a number of renewable (wind, solar and gas / biomass CHP) and non-renewable assets for a number of high-profile clients. Prior to joining PRL in 2011, Adam worked for Carillion PLC, RWE Npower and Aonix UK Limited.
